The most vibrant, engaging and innovative CBD in regional Queensland

Traders and Property Owners Workshop Invitation

Traders and Property Owners in the CBD are invited to participate in a CBD Vision and Objectives Workshop with Council and our recently appointed design firm HASSELL.

Council used consultation feedback received February this year to inform the public tender process for engaging HASSELL. Now they are on board, we are holding these workshops to update you on where Council is currently at, the involvement from the Community Reference Group (CRG) and most importantly providing an opportunity for you to help us in understanding what is most important to you moving forward.

Workshop 1 & 2 offer the same content but at different times to allow you a choice of what works best for you.

Workshop 3 is for Barolin Street traders only as this is where Council plans to start the 1st stage of construction - May 2018. The focus of this session is on understanding how your street works and how it can be improved to help support your business.

Council needs your assistance to move the design forward and this is a great opportunity to be involved.

If you can't make any of these Workshops there are still plenty of ways to get involved. We will have a team out on the streets talking with people between the 19 and 21 October or you can visit our project website cbd.bundaberg.qld.gov.au where there are more opportunities to ask questions, give feedback and share your ideas.
